

FCI Watermaker

VIA YachtProjects International

YachtProjectsInternational

FCI Via YachtProjects

YachtProjects International has taken on the role of Sales, Service and parts supply for FCI Watermakers in the UK and Europe.

Clients of both companies have enjoyed many years of faultless service, FCI customers can now benefit from faster response and service in Europe and YachtProjects' clients will benefit by having yet another world class product available under the same banner they know and respect

YachtProjectsInternational

About FCI

For more than 30 years, FCI Watermakers has been a leader in the reverse osmosis watermaker industry due to our engineers' endless pursuit and drive for innovation, improved performance and the reliability needed when producing clean water.

FCI's team of engineers first pioneered the integration of the UROC (Universal Reverse Osmosis Controller), which allowed features and automation never before seen in a marine watermaker.

Control

Having further developed this automation technology, FCI has introduced our V4 Controls, which not only offer the industry standard automation of one-touch commands and remote system control but also feature detailed system performance, stage of operation production rates, operation PSI and more

MARINE SOLUTIONS & APPLICATIONS

As both engineers and craftsmen, we specialize in dependable, high-performance and value-driven marine watermakers, and are proud of the thousands of continuously operating RO units that have been cruising the globe for decades.

Explore our marine solutions offering water from 200 gpd (gallons per day) to 3,600 gpd.

SPORTFISHING VESSEL

200 - 1,200 GPD

MIDSIZE YACHT

600 - 1,850 GPD

SUPERYACHT

1,400 - 3,600 GPD

Products

AQUAMISER+ FRAMED

AVAILABLE OUTPUT

GPD 250 / 500 / 600 / 800 / 1,200 / 1,800

AQUAMISER+ MODULAR

AVAILABLE OUTPUT

GPD 250 / 500 / 600 / 800 / 1,200 / 1,800

Products

MAX-Q+ FRAMED

AVAILABLE OUTPUT

GPD 700 / 1,275 / 1,850

MAX-Q+APC/DTS DOUBLE-PASS

AVAILABLE OUTPUT

SEAWATER 1,275 / 1,850 GPD

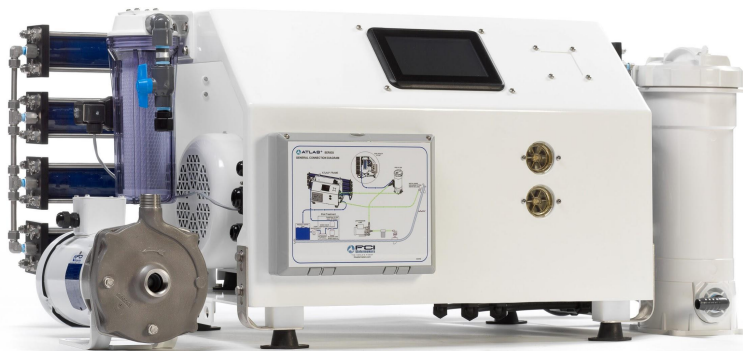

DOUBLE-PASS 900 / 1,200 GPD

DOCKSIDE 2,000 GPD

YachtProjectsInternational

Products

ATLAS+ FRAMED

AVAILABLE OUTPUT

GPD 1,400 / 2,000 / 2,500 / 2,800 / 3,600

ATLAS+ MODULAR

AVAILABLE OUTPUT

GPD 1,400 / 2,000 / 2,500 / 2,800 / 3,600

Control

FCI upgraded V4 Controller's the rock-solid firmware. The improvement increases screen response speed and provides an enhanced graphics-based visualization, or HMI (human machine interface).

Using the V4 Controller is simple with its intuitive menu. Accessed through a hi-res 7" or 4.3" HMI touch screen, users can set up automation processes, such as fresh water flushes, customized for the individual application. Instructions and on-screen help is built into the device for easy troubleshooting.

Key Features

Commercial Prefilter

Commercial quality filtration is standard with our commercial pre-filter housing and pleated 5 micron filter

Sure-Touch Operation

Reliable tactile feedback from FCI's watermaker control panel eliminates operator error and provides automatic programming with at-a-glance monitoring.

Noise Control

Engineering the industry's only frame with eight-point vibration isolation, our watermaking systems are quiet due to its open frame construction,

Low Pressure Pump

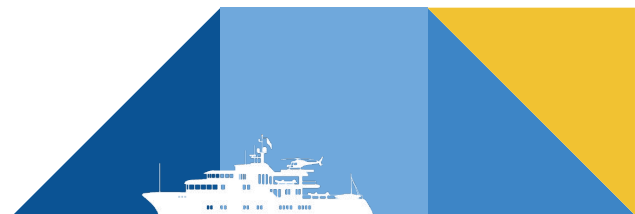

Designed to withstand wet marine environments

Superior Material

Industrial-quality materials ensure the durability and longevity of every FCI watermaker.

Pressure Vessels

Fresh water flush is an included feature in FCI marine systems from 250 gallons per day (GPD) to 3,000 gallons per day (GPD).
